PROFESSIONAL PROFILE

Objective: As a systems engineer specialising in backend development, my goal is to continue to hone my skills in creating robust and scalable solutions. Although my current focus is on backend development, I also have a strong interest in machine learning and deep learning, areas in which I would like to further my knowledge to apply it to projects that integrate artificial intelligence and data processing. I am motivated to constantly learn and take on new technological challenges.

ADDITIONAL

- **Technical skills:** Backend development: Node.js, PHP, Laravel, MySQL, MongoDB.
Frontend development: React, JavaScript Material UI, Tailwind CSS.
Additional tools: Figma, Postman, Insomnia
- **Language skills:** Spanish (Native), English (Conversational B2).
- **Soft skills:** Problem-solving: Ability to identify problems, propose, and implement effective solutions. Teamwork: Experience working in diverse and collaborative teams.
